

ENERGY CAPABILITIES

DECUS INSURANCE BROKERS

WELCOME TO DECUS INSURANCE BROKERS

We would like to thank you for the opportunity to introduce our Energy Division at Decus Insurance Brokers. This document looks to set out our Renewable Energy capabilities and experience and we hope it will adequately answer any questions you may have whilst also demonstrating our enthusiasm to work alongside you.

Following the recent formation of our Energy Division in October 2019, we have utilised our cross-class Energy & Marine backgrounds to establish a broad Energy capability, ranging from Upstream to Downstream, Power and Renewables.

Our experience ranges from handling the insurance requirements of a diverse client base, including global corporates to small independents and we value the importance of maintaining a consistent and equal approach to ensure the highest service levels.

Our clients benefit from our full support at all times and we are always delighted to introduce the wider team so that you are comfortable with our delivery capabilities.

Dominic Quick
Energy Division

Decus Insurance Brokers

- Wind & Solar Power

DAVID NOTLEY, HEAD OF BROKING

DNOTLEY@DECUSBROKERS.COM

David joined Decus in April 2020 to assist in the growth of the Energy Team. He has 25 years experience working in the London market gaining many years experience in Upstream, Downstream and Energy Liability broking sectors. David works with Clients on a global basis but with a focus on the USA, MENA and Latin American territories and has a strong record in supporting clients needs from small independent clients to International Oil and Gas companies working in multiple territories.

Whilst David's main focus has been supporting his Oil and Gas clients, this has been extended to supporting clients in their transition into Green Energy including Wind and Solar construction and Operational programmes both Onshore and Offshore to help them meet their ESG targets.

DANIEL GREEN, BROKER

DGREEN@DECUSBROKERS.COM

Daniel joined Decus in July 2019 on an initial work experience placement before joining permanently in September 2019. In his time at Decus, Daniel has been exposed to various classes of business whilst working within the claims department handling claims in Transportation, Professional Lines, Cyber, Property, Fine Art & Specie and Marine providing a good understanding of London Market Insurance.

After 4 years in the claims team, Daniel made the decision to move onto the placing side, where he now works within the Energy and Marine team working on a broad range of products from Cargo and Specie, Marine Liability, Fine Art & Specie and Energy programmes whilst also working within the Healthcare team as part of a dual role.

Daniel is working towards achieving the Diploma in Insurance (DIP CII) & the Advanced Diploma in Insurance (ACII) having recently gained the Certificate in insurance (Cert CII).
